

Introducing!!
Lowest Installed Cost

- 3 in. Stroke
- Sine performance as shown to 600 lb. payload.
- Max Payload to 800 lbs.

ISTA – 3A Performance to 200 lb. Payload
 OTR: 0.53g RMS, 1.855 in. p-p
 Delivery: .046 RMS, 2.312 in. p-p

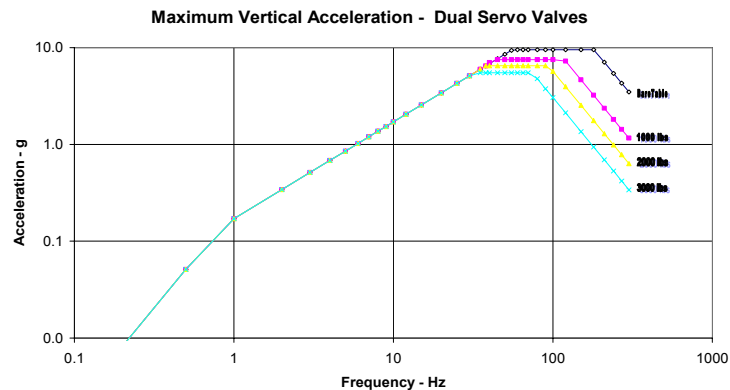

Featuring Team LCS-48-3A

Standard LCS-48 Available – 2 in. stroke capacity to 800 lb.

- Turn-key High Capacity Vertical Vibration Systems:
- Table mounting surfaces: 36, 48, 60 and custom sizes.
- All ISTA & ASTM Transport Specs
- Field Data Replication and Kurtosis Control
- Force Ratings to 50,000 lb.

Featuring Shore Western Hydraulic Subsystems

- 35 years of US manufacturing experience.
- Complex multi-axis simulation systems.

- Manufacturer of Tables, Actuators, Whisper Pak Hydraulic Power Supplies, Hydraulic Service Manifold
- Manufactured vibration and simulation tables for automotive, transport and earthquake

Represented by:

Smithson & Associates Inc.

Introducing!!

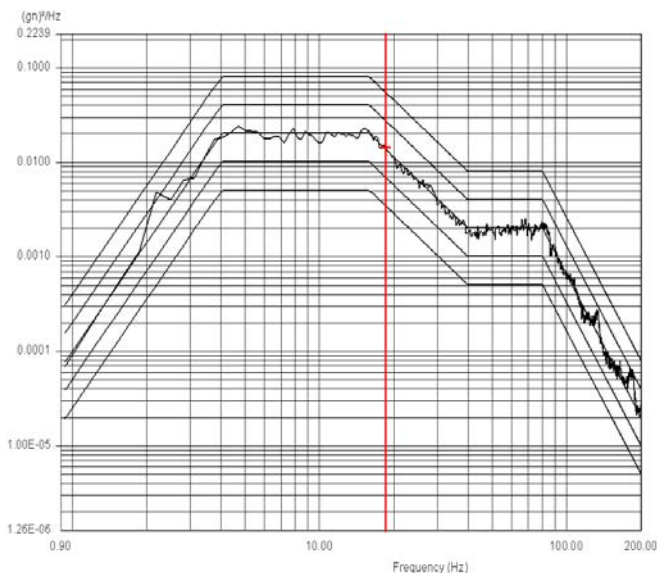

Bi-Axial Random Vibration Unique Rotary Drive

Vertical-Truck
Horizontal-Rail
Combined Bi-Axial

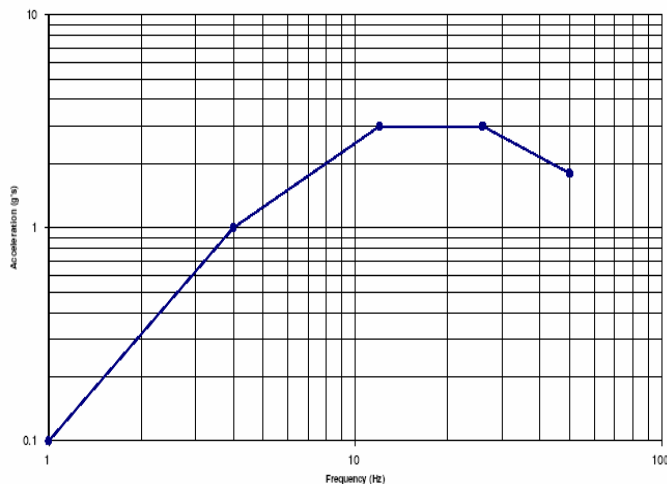

5x5 & 5x7 Table Sizes
Payload to 1000 pounds.

Model TT2/3000

ASTM Truck Assurance Level 1
Calculated Vertical Performance
1000 lbs. Payload

Featuring:

Vibration Research Corporation - Innovators Field Data Replication (FDR) & Kurtosion™ control.
2-32 Channels, 13,000 lines, 24-bit A/D
Sine, Random, Shock, SRS, SoR and more.

Instrumented Sensor Technology – Ruggedized shock and vibration sensor/recorders. For transport and handling, end-use environments. Powerful DynaMax analysis software for time history, PSD, SRS, Package Animator applications.
